

3HV, LLC PRIVACY STATEMENT

This Privacy Statement relates to the services provided by 3HV, LLC, including websites ("Sites") and Native Tablet Applications ("App"). We want you to understand how we collect and use information from such services.

Information We Collect

When you use a Site or interact with an App, we may collect and use various types of information, including personally identifiable information that you provide via such Site or App. "Personally identifiable information" includes your name, address, email address, telephone number, and other similar information that can be used to individually identify you and that is not otherwise publicly available. For example, we may collect the following information:

- Information that you provide directly by filling in forms on a Site or App, including your name, address, email address, telephone number, or other information.
- Information you provide when you communicate with us or our customers through a Site or App for any reason, including information in emails you send, or submissions you may make on a Site or through an App; and
- Details of your visits to a Site and the resources that you access, including, but not limited to, traffic data, location data, weblogs and other communication data, including your IP address, browser type, device identification data, the date and time you accessed or left the Site, and the pages you viewed.

In addition, for Sites and Apps in the United States ("US"), we may combine information about your visits to a particular Site or interactions with our App (which would otherwise be anonymous) with personally identifiable information about you (this combination is sometimes called "PII Merger") so that we or our customers can better understand your interests and serve you better, such as by tailoring your experience within a Site or App to you as described in "Use of Tracking Technologies" below. We do not retrieve personally identifiable information from the computer or other device that you use to visit a Site or App.

Use of Tracking Technologies

We use cookies, pixel tags, server logs, and other technologies to collect information about you and your use of the Sites and App. These technologies do not provide us with your personal information, but they do allow us to track and record your activities on the Sites and App.

A "cookie" is a small computer file that is sent to your computer when you visit a website. When you visit a Site again (or certain other cooperating websites), the cookie allows us to recognize your browser. Cookies may store user preferences and other information. A pixel tag (also known as a "web beacon") is a type of technology placed on a website or within the body of an email for the purpose of tracking a user's activity on websites, or when emails are opened or accessed, and is often used in combination with cookies. To learn more about the details, you may visit www.allaboutcookies.org and/or other resources.

Your Privacy Options

- Decline or Block Cookies and Pixel Tags. You can modify the security settings on your computing device and reset your browser to approve or reject cookies on a case-by-case basis, block cookies from certain sites, or even refuse all cookies. Similarly, you can disable pixel tags by changing your browser settings to omit images and disable Javascript, or use commercial software packages that can omit pixel tags. Please be aware, however, if you "turn off," purge or disable cookies or pixel tags, you may not be able to use all of the features, functions or services available on the Sites.
- Do-Not-Track Request. The Sites currently do not respond to "do not track" or similar signals.

Use of Your Information

- General. We and/or our customers use the information we collect from you on the Sites and the App primarily to enable us to effectively provide our products and services, including:
 - To help our customers provide you the information, products or services you have requested;
 - To monitor and analyze Site and App traffic and usage patterns to help improve our Sites and App, better understand consumers' needs, or to develop new offerings in which our customers may be interested; and
 - To compile statistics and reports regarding the users of the Sites and App; and
 - To share with our related companies or trusted third parties so that they may assist us with our and our customers' use of the information as described above; and
- Other Circumstances. We may disclose information about you, including personally identifiable information, if we have a good faith belief that disclosure is necessary to: (i) comply with applicable laws, regulations, legal process (such as a subpoena), or enforceable government requests; (ii) helping a customer to enforce the Terms of Use for a Site, including investigation of potential violations of such Terms of Use, or to detect, prevent, or otherwise address fraud, security, or technical issues; or (iii) protect against harm to the rights, property, or safety of 3HV, our customers, users, or the public as required or permitted by law. In addition, we may disclose your personal information to third parties if we are involved in a merger, acquisition, or sale of any or all of our business and/or our assets to a third party, provided that they agree to abide by the terms and conditions of this Privacy Statement.

Security and Information Storage

We use commercially reasonable physical, electronic, and managerial procedures to safeguard and secure the information we collect on the Sites and App. These procedures may include, but are not limited to, facility access control, firewalls, encryption, intrusion detection, and Site and App monitoring. However, no data protection procedures are entirely infallible. As a result, while we strive to protect your personally identifiable information, we cannot guarantee that it will be 100% secure. Your transmission of your data to a Site or App is done entirely at your own risk.

Information you provide directly by filling in forms on the Sites or App is stored on a secure server hosted by Amazon Web Services ("AWS"). To learn more about the details of AWS Privacy, visit <https://aws.amazon.com/privacy/> and/or other resources.

Third Party Websites and Social Media Features

The Sites may contain links to third party websites. By accessing other third party websites or applications through a Site, you are consenting to the terms and privacy policies of those websites. It is possible that other parties may collect personally identifiable information about your online activities over time and across different web sites when you use a Site or App.

A site may include social media features, such as the Facebook "Like" button. These features may collect your IP address and the website pages you are visiting, and may set a cookie to enable the feature to function properly. Social media features are either hosted on a third party website or hosted directly on the Sites. Your interactions with these features are governed by the privacy policy of the entity providing them.

International Visitors

The Sites and Apps are hosted and operated in the US. By using a Site or App, you are consenting to the transfer of any information related to your use of such Site or App (including your personal information) to the US or to another jurisdiction other than your own. If you are accessing a Site or App from outside the US, please be advised that US law may not offer the same privacy protections as the laws of your jurisdiction.

Your California Privacy Rights

If you are a California resident, you have the right under California law to request companies with whom you have an established business relationship to provide certain information about the companies' sharing of personal information with third parties for direct marketing purposes during the past year. If you are a California resident and wish to request further information about our compliance with this law or have questions or concerns about our privacy practices, you may contact us using the contact information set forth below.

Children's Privacy

The services that we provide are not intended for persons under 18 years of age, and are not directed at children. We do not knowingly solicit or collect personally identifiable information from children under the age of 18, nor do we market our services to children under the age of 18.

Privacy Statement Updates

We will update this Privacy Statement from time to time, and any changes will take effect immediately after they are posted on this website. Collection and use of your information from that point on will be subject to the updated Privacy Policy. Your continued use of any of the Sites or Apps will be deemed your agreement to the updated Privacy Statement. If you do not agree with the changes, you should stop using the Sites or App and notify us that you do not want your information used in accordance with the changes. We will specify the date of the most recent update in the "Last Date for Updates" section of this Privacy Statement. If you need a copy of any previous version(s) of this Privacy Statement, you may contact us at the address below.

Contacting Us

If you have any questions, comments, or complaints regarding 3HV's privacy practices or this Privacy Statement please do not hesitate to contact us by email info@3hv.com or by writing to:
